

Occupational Therapist

Job Description

- § Conduct tests to assess functional, emotional, psychological, developmental and physical capabilities
- § Plan and direct specific therapeutic programs for individuals using vocational (jobs or careers), recreational, remedial, social and educational activities
- § Select and design a variety of activities that assist an affected movement or function and help individuals to regain personal care skills, such as eating and dressing
- § Assist people to gain, or regain, skills in social, leisure and work environments through graded individual and group therapy and activity programs
- § Monitor the progress of individuals and assist with the coordination of an effective health team
- § Assist children with disabilities to integrate into education programs in schools
- § Assess the ability of injured workers to return to their usual employment or to perform alternative duties
- § Design and modify the everyday environment of clients to allow for better access and independence
- § Advise on the use of specialized equipment, such as home modifications, adapted kitchen utensils, wheelchairs and other assistive technologies, which help people within their environment
- § Assess the need for, develop and run health education programs
- § Act as consultants to industry and government organizations
- § Undertake research
- § Teach in academic institutions
- § Assist in policy development for health and other related areas.
